

Cell Culture Dishes

Where to order

The dishes are made by Corning Inc. There are three types of cell culture dishes:

- small (35 mmx10 mm, #430165),
- medium (60 mmx15 mm, #430166),
- large (100 mmx20 mm, #430167)

Description

The amount of cell culture medium can be calculated from the size of the dish. We put about

- 2 ml medium into the small dish,
- 4-5 ml medium into the media dish,
- 12 ml medium into the large dish.
